Lynn Kauppila, CMMA
Chief Administrative Officer

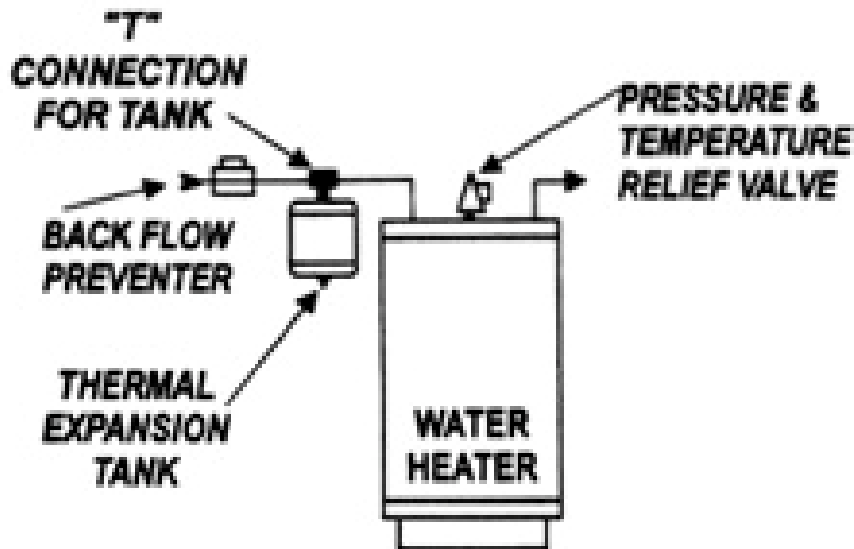

REMINDER

Just a reminder that an owner connected to the water system must install a backflow prevention device (dual check valve) and an expansion tank for thermal expansion as shown on the diagram below. The deadline to meet these requirements is **January 1, 2012.** Please make arrangements to have the work completed as soon as possible and forward the completed form on the reverse side to our office.

An inspection program will be established to verify compliance with this requirement.

Thank you.

Typical Residential Installation:
