Donald Walsh – Reeve

Lynn Kauppila, CMMA
Chief Administrative Officer

Please be advised that beginning on October 25th, 2013 and the RM of Woodlands have engaged the services of R2G2 to begin the process of cutting down and removing dead trees along Twin Lakes Beach Road. Through D.F.A. we are able to obtain funding to remove only those dead trees within 15-20 feet of the municipal road.

However, as many of you have a number of dead trees on your property, you may wish to avail yourselves of the opportunity to contact R2G2 *(Ron Kerbrat @ #204-861-2063) to arrange privately for his crew to cut down and haul away your trees at the same time. As their crews and equipment will already be in the area, you may find certain savings afforded to you to have them perform this function now, rather than waiting until next year. Please note that these are private arrangements between the property owner and R2G2.
